

Be a part of our research

Make a difference by contributing to CliniKids research!

CliniKids conducts a wide range of research projects that you can participate in. Our projects aim to make a meaningful difference to the lives of children diagnosed with autism or developmental delays ... and you can help.

If you and your family are interested in contributing to research, you can join our research participation list.

What is involved?

Fill out our sign-up form, providing us with your name, contact details and whether your child has received any diagnoses.

We'll retain this information and contact you about research projects that fit your circumstances.

You can choose which projects suit you and your interests. You'll be under no obligation to participate in any projects by joining our recruitment list.
